Water consumption up to 2 m³ is normally covered by the price for connection to the mains. Further consumption will be charged to your account. The prices mentioned include material, assemblage and dismantling, safety maintenance (also on Sundays and on holidays) as well as transport and storekeeping. The supply of the appliances (which should be locked to) should be occurred up to 2 days before the fair. Because of safety precautions installation work may only be executed by contractors authorized by the MESSE MAGDEBURG. Please mark the water connections and special services on the standsketch.

All prices are subject to value added tax at the relevant rate. The customer hereby accept the Terms and Conditions of Participation.
